# Other news here and abroad

The first school in the UK to twin with an African school is Heene C of E Primary school in Worthing. They are twinning with Morning Star Academy in Nakuru. Matthew and Michelle have already taken pictures around the school in Worthing and will be showing them to the children and staff in Nakuru during their visit in September.

In Uganda, Edward has purchased the land next to Ray of Hope school so that we can build a new hall that will help towards meeting the Government's requirements for a primary school to be registered. He has also almost finished the teacher's accommodation.

In Naluwerere, solar lights have been put into the boarding section of Elohim school, and digging has been started on the well, which will enable the school to have its own water supply.

## Prayer news

We want to start a regular prayer base for the work. We have been meeting on the first Tuesday of the month in our home, but want to extend this to enable everyone across the country who would like to pray regularly with us. To that end, if you would like to pray regularly for the work of Hope in Africa, then please contact us by email or text message. When we return from Malawi and Kenya, we will set up the network for prayer.
