

Caption 1 Inside Kirwa's house showing his belongings

Dad and Mum,
This complete as I get ready to plan to report back to job on 22nd this month, I really feel great to share in this achievement. My hope that I do more when I come back, Already the community/my neighbours are enjoying the use of the water since they now don't have to fetch water from the river which is far from here. I am short of electricity but solar powered light is doing great for now, next time if all goes well with power I will install water pump and a 2000l water tank so that it

will be easy to run and make more use of the water for both me and the new neighbours.

Lots of love to both of you and to the rest of the family.

"My achievement is Child2Child achievement, free to be shared as a testimony for the rest of the family to be inspired"

I do take it positive when sometime you say no, coz it helps to mold me and to harden me in many ways which is good. Thank you so much for helping me to get where I am today.

You can see that in the house I did not struggle to find bed, table, cooker and gas cylinder and more others that I can't mention, they are still the ones that you had provided for me to start life with.

May God bless you in a big way.

Kirwa.
